From the Back Cover

"This is an excellent primer for traders at the start of their Forex trading career. I especially like the fact that it is separated into two parts, with Part 1 covering a complete introduction to Forex and Part 2 covering the exact strategies. At the end, Mario provides two invaluable pieces of advice for continued success. Firstly, he provides the five rules a trader must adhere to. Secondly, he sets out the three character attributes a trader

must have. I believe this book deserves a place in your bookshelf."

—Ray Barros, trader, private hedge fund manager, and author of *The Nature of Trends*

"Since I have been investing in international equities for many years, this book was of particular interest. Foreign exchange impacts us all and particularly those of us investing globally. This book gives a fascinating insight into exactly how the Foreign Exchange market, the world's largest, actually works. I was particularly interested in the description of the six major players in the market: central banks, commercial and investment banks, multinational corporations, institutional traders, retail Forex brokers, and retail traders. One particularly fascinating feature in the book is a psychological questionnaire that determines 'What kind of trader are you?' and also deals with trading strategies for various types of traders."

—Mark Mobius, President, Templeton Emerging Markets

"Success! Mario has created a series of powerful, easy-to-use trading strategies that anyone can use regardless of their level of experience. I've had the pleasure of knowing Mario and working with him for years, and there is no better person from which to learn about currency trading. *17 Proven Currency Trading Strategies* gives the reader everything they need to succeed.

—Ed Ponsi, President of FXEducator.com and EdPonsi.com

"Mario Singh is the King of Forex in Asia! He is one of the few people who truly understands the importance of combining fundamentals with technicals and does it extremely well. He is a great friend, and his passion for trading and teaching others comes through clearly. This book is jam-packed with useful trading strategies for all types of traders. You can literally pick up this book and start trading. Well respected throughout Asia, this book will quickly become a staple on the bookshelves of all Forex traders in the region."
