The Rodale Book of Composting: Easy Methods for Every Gardener By Jerry Minnich

The essential guide to composting for all gardeners and environmentally conscious people

Composting is fast becoming a household word. Gardeners know it is the best way to feed the soil, while others look to composting as a way to dispose of grass clippings, autumn leaves, and tree trimmings. *The Rodale Book of Composting* edited by Grace Gershuny and Deborah L. Martin offers:

- * Easy-to-follow instructions for making and using compost
- * Helpful tips for apartment dwellers, suburbanites, farmers and community leaders
- * Ecologically sound solutions to growing waste disposal problems

Editorial Review

From Library Journal

This is an update of Jerry Minnich and others' *The Rodale Guide to Composting* (LJ 5/1/79), which itself updated J.L. Rodale's *Complete Book of Composting* (Rodale Pr., 1960. o.p.). The broad spectrum of information given will be useful from backyard urban gardening on up to industrial, municipal, and farm recycling. The first quarter of the book gives you all you ever wanted to know on the science of composting--and more--along with some history. A discussion of materials, methods, structures, equipment, and uses is followed by a brief look at large-scale composting. The writing is an uneven mix of scientific detail and the anecdotal. Chemical reactions are described in exquisite detail, and yet most quotes, while attributed, are neither dated nor their source given. Stu Campbell and Kathleen Bond Borie's *Let It Rot: The Gardener's Guide to Composting* (LJ 1/91) is more readable and inviting for the individual gardener. While useful for its in-depth, detailed coverage, Rodale's almost-textbook is recommended only for comprehensive gardening collections.

- Sharon Levin, *Univ. of Vermont Lib., Burlington*

Do you oftentimes have book but you don't get what it's interesting features of. Oh come on, that will not end up to happen if you have this in the hand. The Enjoyable agreement here cannot be questionable, similar to treasuring beautiful island. So do you still want to miss the item? Find this book and also read it from now!

Julie Bailey:

As a scholar exactly feel bored to help reading. If their teacher asked them to go to the library or make summary for some guide, they are complained. Just tiny students that has reading's soul or real their pastime. They just do what the trainer want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that studying is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this The Rodale Book of Composting: Easy Methods for Every Gardener can make you really feel more interested to read.
