About the Author

Hi, my name is Tony Scott, author of "Managing and Budgeting Money: How to easily budget and manage your money in a simple step by step approach". I am an entrepreneur and businessman. I currently run three successful businesses. I am also a Chartered Accountant by profession. I decided to write my first self published book to help other people who are struggling in their financial life with managing money. This book will help them during this phase and provide them with guidance so that they can avoid the money mistakes that i made. I am extremely passionate about the contents of this book as it has changed my life dramatically and brought me financial freedom. I know exactly what it's like to go through life from paycheque to paycheque and not having any control of your finances. I know the feelings of frustration, depression and guilt that poor financial control has on your life. Your financial health is one of the most important areas of your life, as failure in this area generally has a huge negative impact in all other areas of your life like your relationships and health. I managed to get myself out of the financial mess that I was in through proper financial management. I will teach you the tools and techniques that I have used and also share with you a budgeting template that I still use. Please check out my books below. I hope you enjoy them!
