College Physics (High School Edition) By Raymond A. Serway, Chris Vuille

While physics can seem challenging, its true quality is the sheer simplicity of fundamental physical theories--theories and concepts that can enrich your view of the world around you. COLLEGE PHYSICS, Tenth Edition, provides a clear strategy for connecting those theories to a consistent problem-solving approach, carefully reinforcing this methodology throughout the text and connecting it to real-world examples. COLLEGE PHYSICS, Tenth Edition, combines a logical presentation of the physical concepts with a consistent problem-solving strategy that results in true understanding for the student. The new edition features learning objectives for every section of the text, new Warm-Up Exercises to review mathematical and physical concepts that are prerequisites for a given chapter's problems set, and a general preview of the new physics concepts covered, as well as new online tutorials to assist students in understanding how to apply certain key concepts presented in a given chapter. For students planning to take the MCAT exam, the text's exclusive test prep and review tools help them prepare. The new edition is also supported by innovative technologies to enhance your teaching experience and your students' learning. - See more at:

Editorial Review

About the Author

Raymond A. Serway received his doctorate at Illinois Institute of Technology and is Professor Emeritus at James Madison University. In 2011, he was awarded an honorary doctorate degree from his alma mater, Utica College. He received the 1990 Madison Scholar Award at James Madison University, where he taught for 17 years. Dr. Serway began his teaching career at Clarkson University, where he conducted research and taught from 1967 to 1980. He was the recipient of the Distinguished Teaching Award at Clarkson University in 1977 and the Alumni Achievement Award from Utica College in 1985. As Guest Scientist at the IBM Research Laboratory in Zurich, Switzerland, he worked with K. Alex Müller, 1987 Nobel Prize recipient. Dr. Serway also was a visiting scientist at Argonne National Laboratory, where he collaborated with his mentor and friend, the late Sam Marshall. In addition to PHYSICS FOR SCIENTISTS AND ENGINEERS, Dr. Serway is the coauthor of PRINCIPLES OF PHYSICS, Fifth Edition; COLLEGE PHYSICS, Ninth Edition; ESSENTIALS OF COLLEGE PHYSICS; MODERN PHYSICS, Third Edition; and the high school textbook PHYSICS, published by Holt McDougal. In addition, Dr. Serway has published more than 40 research papers in the field of condensed matter physics and has given more than 60 presentations at professional meetings. Dr. Serway and his wife Elizabeth enjoy traveling, playing golf, fishing, gardening, singing in the church choir, and especially spending quality time with their four children, nine grandchildren, and a recent great-grandson.

Chris Vuille is an associate professor of physics at Embry-Riddle Aeronautical University, Daytona Beach, Florida, the world's premier institution for aviation higher education. He received his doctorate in physics at the University of Florida in 1989. While he has taught courses at all levels, including postgraduate, his primary interest and responsibility has been the delivery of introductory physics. He has received a number of awards for teaching excellence, including the Senior Class Appreciation Award (three times). He conducts research in general relativity, astrophysics, cosmology, and quantum theory and was a participant in the JOVE program, a special three-year NASA grant program during which he studied properties of neutron stars. His work has appeared in a number of scientific journals and in ANALOG SCIENCE FICTION/SCIENCE FACT magazine. In addition to this textbook, he is the coauthor of ESSENTIALS OF COLLEGE PHYSICS. Dr. Vuille enjoys playing tennis, swimming, and playing classical piano; he is a former chess champion of St. Petersburg and Atlanta. His wife, Dianne Kowing, is an optometrist for a local VA clinic. Teen daughter Kira Vuille-Kowing is a meteorology/communications double major at ERAU and a recent graduate of her father's first-year physics course. He has two sons--fifteen-year-old Christopher, a cellist and fisherman, and six-year-old James, an avid reader of Disney comics.

Users Review

From reader reviews:

Harold Froelich:

Book is actually written, printed, or created for everything. You can know everything you want by a e-book. Book has a different type. We all know that that book is important point to bring us around the world. Close to that you can your reading skill was fluently. A reserve College Physics (High School Edition) will make you to be smarter. You can feel much more confidence if you can know about every thing. But some of you think which open or reading any book make you bored. It's not make you fun. Why they could be thought

like that? Have you in search of best book or ideal book with you?

Omar Yoder:

Typically the book College Physics (High School Edition) will bring one to the new experience of reading the book. The author style to describe the idea is very unique. When you try to find new book to learn, this book very ideal to you. The book College Physics (High School Edition) is much recommended to you to study. You can also get the e-book in the official web site, so you can more easily to read the book.

Helen Johnson:

Why? Because this College Physics (High School Edition) is an unordinary book that the inside of the reserve waiting for you to snap that but latter it will distress you with the secret it inside. Reading this book alongside it was fantastic author who also write the book in such amazing way makes the content within easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you for not hesitating having this any longer or you going to regret it. This excellent book will give you a lot of positive aspects than the other book have such as help improving your proficiency and your critical thinking approach. So , still want to postpone having that book? If I have been you I will go to the reserve store hurriedly.

Lee Fuller:

You can find this College Physics (High School Edition) by browse the bookstore or Mall. Simply viewing or reviewing it may to be your solve difficulty if you get difficulties on your knowledge. Kinds of this publication are various. Not only by simply written or printed and also can you enjoy this book simply by e-book. In the modern era including now, you just looking by your mobile phone and searching what their problem. Right now, choose your ways to get more information about your guide. It is most important to arrange you to ultimately make your knowledge are still change. Let's try to choose correct ways for you.
