Lion Hunting and Other Mathematical Pursuits: A Collection of Mathematics, Verse, and Stories (Dolciani Mathematical Expositions, Vol 15) By Jr Ralph P. Boas

In the famous paper of 1938, 'A Contribution to the Mathematical Theory of Big Game Hunting', written by Ralph Boas along with Frank Smithies, using the pseudonym H. W. O. Pétard, Boas describes sixteen methods for hunting a lion. This marvelous collection of Boas memorabilia contains not only the original article, but also several additional articles, as late as 1985, giving many further methods. But once you are through with lion hunting, you can hunt through the remainder of the book to find numerous gems by and about this remarkable mathematician. Not only will you find his biography of Bourbaki along with a description of his feud with the French mathematician, but also you will find a lucid discussion of the mean value theorem. There are anecdotes Boas told about many famous mathematicians, along with a large collection of his mathematical verses. You will find mathematical articles like a proof of the fundamental theorem of algebra and pedagogical articles giving Boas' views on making mathematics intelligible.

Editorial Review

Review

'I highly recommend Lion Hunting and Other Mathematical Pursuits to high school mathematics clubs, mathematics teachers of all levels, and anyone interested in mathematics. Perhaps the most important feature of this book is how it subtly makes the reader aware of the nature of mathematics.' The Mathematics Teacher

From reader reviews:

Coleman Bailey:

Hey guys, do you wish to find a new book to see? Maybe the book with the name Lion Hunting and Other Mathematical Pursuits: A Collection of Mathematics, Verse, and Stories (Dolciani Mathematical Expositions, Vol 15) suitable to you? The particular book was written by a well-known writer in this era. The particular book titled Lion Hunting and Other Mathematical Pursuits: A Collection of Mathematics, Verse, and Stories (Dolciani Mathematical Expositions, Vol 15) is the main one of several books that will everyone read now. This particular book has inspired many people in the world. When you read this guide you will enter the new age that you never know ahead of. The author explained their strategy in a simple way, thus all of people can easily understand the core of this reserve. This book will give you a lot of information about this world now. So that you can see the represented of the world on this book.

Carolyn Hoar:

The publication with title Lion Hunting and Other Mathematical Pursuits: A Collection of Mathematics, Verse, and Stories (Dolciani Mathematical Expositions, Vol 15) has a lot of information that you can learn it. You can get a lot of benefit after reading this book. That book exists new expertise the information that exists in this guide represented the condition of the world today. That is important to you to learn how the improvement of the world. This kind of book will bring you with a new era of the positive effect. You can read the e-book with your smart phone, so you can read the item anywhere you want.

Lynne Young:

This Lion Hunting and Other Mathematical Pursuits: A Collection of Mathematics, Verse, and Stories (Dolciani Mathematical Expositions, Vol 15) is a great publication for you because the content that is full of information for you who also always deal with the world and also have to make a decision every minute. This specific book reveals its data accurately using great organized words or we can claim no rambling sentences in it. So if you are reading that hurriedly you can have whole data in it. Doesn't mean it only gives you straight forward sentences but tricky core information with wonderful delivering sentences. Having Lion Hunting

and Other Mathematical Pursuits: A Collection of Mathematics, Verse, and Stories (Dolciani Mathematical Expositions, Vol 15) in your hand like getting the world in your arm, details in it is not ridiculous one. We can say that no guide that offer you world throughout ten or fifteen minute right but this book already do that. So , this really is good reading book. Hey there Mr. and Mrs. hectic do you still doubt in which?

William Levitt:

What is your hobby? Have you heard this question when you got college students? We believe that that problem was given by teacher to the students. Many kinds of hobby, Every individual has different hobby. So you know that little person including reading or as reading through become their hobby. You have to know that reading is very important along with book as to be the point. Book is important thing to provide you knowledge, except your own personal teacher or lecturer. You get good news or update with regards to something by book. A substantial number of sorts of books that can you take to be your object. One of them is Lion Hunting and Other Mathematical Pursuits: A Collection of Mathematics, Verse, and Stories (Dolciani Mathematical Expositions, Vol 15).
