Experimental Homebrewing: Mad Science in the Pursuit of Great Beer By Drew Beechum, Denny Conn

Trial. Error. Better Beer.

When most brewers think of an experimental beer, odd creations come to mind. And sure, in this book you can learn how to brew with ingredients like bacon, chanterelle mushrooms, defatted cacao nibs, and peanut butter powder. However, experimental homebrewing is more than that. It's about making good beer--the best beer, in fact. It's about tweaking process, designing solid recipes, and blind evaluations. So put on your goggles, step inside the lab, and learn from two of the craziest scientists around: Drew Beechum and Denny Conn. Get your hands dirty and tackle a money-saving project or try your hand at an off-the-wall technique. Freeze yourself an Eisbeer, make a batch of canned starter wort, fake a cask ale, extract flavors with distillation, or sit down at the microscope and do some yeast cell counting. More than 30 recipes and a full chapter of open-ended experiments will complete your transformation. Before you realize it, you'll be donning a white lab coat and sharing your own delicious results!

Editorial Review

Review

"Drew and Denny have provided a practical and insightful approach that covers a wide range of the techniques and ingredients being used by today's best brewers. This book has everything that homebrewers can use to take their skills to the next level." - ***Mitch Steele, Brewmaster at Stone Brewing and author of IPA***

"The new homebrew bible! There are a lot of great ideas that I plan on using in our brewhouse. A must read!" - ***John Maier, Brewmaster at Rogue Ales***

"Not since *Radical Brewing* has a book so thoroughly tackled the wildly-creative side of homebrewing." - ***Gordon Strong, BJCP President, Author of Brewing Better Beer, and Three-time Ninkasi Award Winner***

"I was delighted when I read this book for the first time. It's a whimsical yet authoritative treatise on the ingredients and processes that make great beer, and the best beer recipe book since *Brewing Classic Styles*. *Experimental Homebrewing* is a book that every brewer can benefit from." - ***John Palmer, Author of How to Brew, Brewing Classic Styles, and Water: A Comprehensive Guide for Brewers***

"From the most basic brewing recipe to the craziest concoction you have ever brewed, experimentation is the key to tracking your progress. In this fantastic book, Drew and Denny provide the structure needed to unleash the endless secrets of brewing, one beer and one experiment at a time!" - ***Jaime Floyd, Owner and Brewer at Ninkasi Brewing***

"What I love about homebrewing is the opportunity for experimentation, learning, fun, and great beer. Drew and Denny have captured all of that and more." - ***Jamil Zainasheff, Author of Brewing Classic Styles, Owner of Heretic Brewing***

"With home and craft brewing widely practiced, next-level direction will be welcome, and the authors bring

more than 30 years of combined experience to this informative, playful guide. Beechum (*The Everything Homebrewing Book*) and Conn (contributor, *Craft Beer for the Homebrewer: Recipes from America's Top Brewmasters*) are accomplished brewers and serve on the American Homebrewers Association Governing Committee. While the heart of the work addresses experimentation, adequate coverage is given to basic ingredients, equipment, and techniques. The "Favorite Experimental Styles" chapter particularly reflects the book's utility by exploring these fashions, then adding variations so fellow brewers get a feel for moving from the known to the unknown. The final section, "The Experiments," highlights the science and community behind brewing and invites readers to "reportâ€¦results and discuss them" at the book's website. The detailed index enables easier navigation of the text. **VERDICT** With this much talent on tap, readers won't be disappointed. Recommended for beginners (but not complete novices) and veteran home brewers who enjoy a challenge or want to experiment with their craft." - **Library Journal**

About the Author

Drew Beechum has been brewing and writing about brewing since he first picked up a kettle in 1999. He is the author of *The Everything Homebrewing Book*, *The Everything Hard Cider Book*, and *The Homebrewer's Journal*, and coauthor of *Experimental Homebrewing*. Beechum has also written for *Zymurgy*, the journal of the American Homebrewers Association, writes a regular column for *Beer Advocate*, and is the cohost of the *Experimental Brewing* podcast. He lives in Pasadena, California, with his lovely wife, a dedicated brewery, and his loyal army of dogs and cats. Denny Conn brewed his first batch of homebrew in 1998 and since then has brewed over 500 more. He is a BJCP national-ranked beer judge and has been a member of the governing committee of the American Homebrewers Association for nine years. His recipes have been brewed by several commercial breweries in both the United States and Europe. He was a contributing author to *Craft Beer for the Homebrewer* and coauthor of *Experimental Homebrewing*. He currently consults for several breweries, is a field educator for Oakshire Brewing in Eugene, Oregon, and cohosts the *Experimental Brewing* podcast. He lives in the foothills of the Coast Range in Oregon with his wife, five cats, and two dogs.

Users Review

From reader reviews:

William Fugate:

Do you certainly one of people who can't read pleasant if the sentence chained in the straightway, hold on guys this specific aren't like that. This *Experimental Homebrewing: Mad Science in the Pursuit of Great Beer* book is readable by simply you who hate the perfect word style. You will find the info here are arrange for enjoyable looking at experience without leaving also decrease the knowledge that want to deliver to you.
