First Meetings in Ender's Universe (Other Tales from the Ender Universe)

By Orson Scott Card

Meet Andrew "Ender" Wiggin, the unforgettable boy-hero of *Ender's Game*--winner of the Hugo Award and the Nebula Award for Best Novel--and enter his Universe through this collection of stories.

"The Polish Boy" is John Paul Wiggin, the future father of Ender. In the years between the first two Bugger Wars, the Hegemony is desperate to recruit brilliant military commanders to repel the alien invasion. They may have found their man--or boy--in John Paul Wiggin....

In "Teacher's Pest"-a novella written especially for this collection--a brilliant but arrogant John Paul Wiggin, now a university student, matches wits with an equally brilliant graduate student.

"The Investment Counselor" is set after the end of the Bugger Wars. Banished from Earth and slandered as a mass murderer, twenty-year-old Andrew Wiggin wanders incognito from planet to planet as a fugitive--until a blackmailing tax inspector compromises his identity and threatens to expose Ender the Xenocide.

Also reprinted here is the original award-winning novella, "Ender's Game," which first appeared in 1977.

From School Library Journal

Grade 6 Up-Andrew "Ender" Wiggins, a brilliant leader and tactician and destined to save Earth by destroying an entire alien civilization at the age of 12, was first introduced in Card's "Ender's Game" in Analog magazine (1977). That novella, plus three other stories (including one never before published) make up this appealing and entertaining collection of tales, all dealing with first meetings that played significant roles in the life of Ender Wiggins. "The Polish Boy" introduces his extraordinary father, John Paul, who manages at the age of six to trick the Hegemony into bringing his entire family from Poland to the United States. "Teacher's Pest" is the story of how John Paul meets and romances the equally brilliant graduate student Theresa Brown. Finally, in "The Investment Counselor," a mysterious accounting program named Jane appears just when 20-year-old Andrew Wiggins needs help figuring out both his taxes and what to do with the rest of his life. All four stories use the future setting as a framework to explore various issues of religion, government control, population limits, education, and moral responsibility. Character, setting, plot-Card does them all right, and makes it look effortless. The graphic novelesque illustrations will appeal to teens. For newcomers to Ender's universe and long-time fans, this book will hit the spot and whet the appetite for more.

This accessible collection will impress even non-sci-fi buffs, besides being a must-have for Ender saga devotees.” *?Publishers Weekly on First Meetings*

“These stories demonstrate the assured scene setting, apparently effortlessly sustained suspense, and moral preoccupation with the responsibilities of kinship and friendship that distinguishes Ender's entire saga.” *?Booklist on First Meetings*
