Sociology for Health Professionals By Lani Russell

Sociology is a key topic for all trainee health professionals, but many struggle to see what sociology has to offer. Based on years of experience teaching sociology to healthcare students, Lani Russell has written a truly introductory text which explains the main sociological concepts without jargon or becoming too advanced. Using carefully chosen examples, she shows how health issues are influenced by social phenomena such as class, race or sexuality and the relevance this has for practitioners.

The book includes:

- The main sociological concepts relevant to healthcare students
- Examples linking sociological concepts and major health topics
- Exercises to test students' understanding
- Glossaries of key terms and key theorists
- Advice on further reading
- A full companion website with teaching materials for lecturers and learning resources for students

This is the ideal text to recommend to students who need an accessible introduction to the sociology of health and illness.

Editorial Review

Review

‘Excellent. This text covers all the aspects of sociology that any discerning undergraduate would want or need. The case studies will be very helpful for student learning and development.’

(Karen Wild, Lecturer in Adult Nursing, Keele University)

‘This book has helped me to understand the challenging topic of sociology. The writing is engaging for undergraduate students like me.’

(Jenny Goodwin, Physiotherapy student, Glasgow Caledonian University)

About the Author

Users Review

From reader reviews:

Johnny Cervantes:

Do you have favorite book? For those who have, what is your favorite's book? Book is very important thing for us to learn everything in the world. Each publication has different aim or goal; it means that book has different type. Some people experience enjoy to spend their time for you to read a book. These are reading whatever they consider because their hobby is actually reading a book. What about the person who don't like looking at a book? Sometime, person feel need book when they found difficult problem or exercise. Well, probably you will want this Sociology for Health Professionals.

Scott Fisher:

Information is provisions for those to get better life, information these days can get by anyone in everywhere. The information can be a know-how or any news even restricted. What people must be consider when those information which is in the former life are challenging be find than now could be taking seriously which one is acceptable to believe or which one the actual resource are convinced. If you get the unstable resource then you obtain it as your main information we will see huge disadvantage for you. All of those possibilities will not happen with you if you take Sociology for Health Professionals as the daily resource information.

Patsy Locke:

The publication untitled Sociology for Health Professionals is the book that recommended to you to see. You can see the quality of the book content that will be shown to an individual. The language that author use to explained their ideas are easily to understand. The writer was did a lot of analysis when write the book, to ensure the information that they share for your requirements is absolutely accurate. You also could get the e-book of Sociology for Health Professionals from the publisher to make you much more enjoy free time.

Rosemary Robinson:

This Sociology for Health Professionals is great publication for you because the content and that is full of information for you who else always deal with world and still have to make decision every minute. This book reveal it information accurately using great coordinate word or we can say no rambling sentences included. So if you are read the idea hurriedly you can have whole information in it. Doesn't mean it only offers you straight forward sentences but challenging core information with splendid delivering sentences. Having Sociology for Health Professionals in your hand like having the world in your arm, details in it is not ridiculous a single. We can say that no guide that offer you world throughout ten or fifteen small right but this publication already do that. So , this is certainly good reading book. Hi Mr. and Mrs. occupied do you still doubt this?
