Accounting Information Systems By Ulric J. Gelinas, Richard B. Dull, Patrick Wheeler

Users explore today's most intriguing AIS topics to see how they relate to business processes, information technology, strategic management, security, and internal controls. The text is clearly written to help users grasp even the most challenging topics. ACCOUNTING INFORMATION SYSTEMS, 10E focuses on three critical accounting information systems used today: enterprise systems, e-Business systems, and controls for maintaining those systems. The tenth edition provides users with the necessary tools and processes for organizing and managing information.

Editorial Review

Review

"Direct presentation. Good coverage of subject matter. Leads with real-world examples, particularly with good fraud cases, which makes things interesting for the reader."

"Solid AIS textbook--has important practice details that students can put to use."

About the Author

Ulric J. (Joe) Gelinas, Jr., PhD, is Professor Emeritus at Bentley University, Waltham, Massachusetts. For PricewaterhouseCoopers, Dr. Gelinas developed and taught training programs for business processes, internal control, and IT audit. He was Senior Consultant for MIS Training Institute teaching courses in the IT Audit curriculum and taught in the University of Maastricht's International Executive Master of Finance and Control Program. Dr. Gelinas has also taught at the University of Tennessee and at Vesalius College, Vrije Universiteit Brussel, in Brussels, Belgium. Dr. Gelinas has published articles on inter-organizational collaboration and coordination infrastructures, accounting information systems, use of technology in business education, technical communications, and information privacy. These articles have appeared in academic and practitioner journals, including the Journal of Information Systems, Issues in Accounting Education, IS Audit & Control Journal, Government Information Quarterly, Journal of Information Technology, International Journal of Technology Management, International Journal of IT Standards and Standardization Research, Journal of Information Systems Education, Technical Communications Quarterly, and IEEE Transactions on Professional Communication. In 2003, Dr. Gelinas received the Innovation in Auditing and Assurance Education Award from the American Accounting Association. He has made presentations and conducted workshops at the International Conference of the Information Systems Audit and Control Association (ISACA) and at ISACA's Computer Audit, Control, and Security (CACS) conferences as well as for other professional groups. Dr. Gelinas was a member of the U.S. expert panel that reviewed Control Objectives for Information and Related Technology (COBIT) and has conducted COBIT workshops throughout the world.

Richard (Rick) Dull, PhD, CPA/CFF, CISA, CFE, is the GoMart Professor in Accounting Information Systems, and Chair of the Department of Accounting at West Virginia University in Morgantown, West Virginia. Dr. Dull has also taught at Reykjavik University, Clemson University, Indiana University-Indianapolis, and High Point University. His professional experience includes application programming with a manufacturing firm as well as audit and information systems consulting experience with a national CPA firm. He was co-founder and partner in a CPA/consulting firm where he specialized in installation and support of accounting information systems. His work on a project involving cross-departmental integration of enterprise systems earned him a Microsoft Pinnacle Award for Excellence in Education as well as a Clemson University Board of Trustees Award for Faculty Excellence. Dr. Dull has been published in numerous academic and practitioner journals, including Journal of Information Systems, International Journal of Accounting Information Systems, Journal of Emerging Technologies in Accounting, Accounting Education: An International Journal, Issues in Accounting Education, Journal of Accountancy, CPA Journal, and Personal Financial Planning. He is a member of the American Accounting Association, American Institute of CPAs, Association of Certified Fraud Examiners, AIS Educator Association, and ISACA. He has served on the AICPA's Assurance Services Executive Committee and as President of the American Accounting Association's Accounting Information Systems and Artificial Intelligence/Emerging Technologies sections. He recently served on the AICPA's BEC Subcommittee and as editor for Journal of

Information Systems, associate editor for Accounting Education: An International Journal, and editorial advisor for the Journal of Accountancy.

Patrick Wheeler, PhD, CPA, CITP, is Associate Professor at the University of South Florida in Tampa, Florida. He teaches accounting information systems at the graduate and undergraduate levels and has extensive training in databases and enterprise resource planning systems (SAP and Oracle Financials). Dr. Wheeler is a CPA with the Louisiana Society of CPAs and a Certified Information Technology Professional (CITP) with the American Institute of CPAs. His research focuses on behavioral issues in information systems, especially in regard to the impact of computerized decision aids on business decision making. His articles, published worldwide in numerous academic journals and magazines, can be found in The Accounting Review, Journal of Information Systems, Behavioral Research in Accounting, Advances in Accounting Behavioral Research, International Journal of Accounting Information Systems, International Journal of Disclosure and Governance, Studies in Managerial and Financial Accounting, Issues in Accounting Education, and Review of Accounting Information Systems. He received the 2007 Outstanding Research Paper Award and the 2007 Finalist Research Paper Award from the Information Systems (IS) section of the American Accounting Association (AAA). He won the Outstanding IS Dissertation Award at the 2001 AAA Annual Meeting and currently serves on the editorial review boards of the Journal of Information Systems and International Journal of Accounting Information Systems. He received the 2006 Outstanding Service Award from the AAA IS Section. Dr. Wheeler is active in the AAA at both the national and regional levels.

Users Review

From reader reviews:

Marie Griffin:

What do you in relation to book? It is not important along with you? Or just adding material if you want something to explain what your own problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to perform others business, it is give you a sense of feeling bored faster. And you have extra time? What did you do? All people has many questions above. They have to answer that question mainly because just their can do that will. It said that about reserve. Book is familiar on every person. Yes, it is appropriate. Because start from on jardín de infancia until university need this kind of Accounting Information Systems to read.

Alma Young:

Spent a free time and energy to be fun activity to accomplish! A lot of people spent their spare time with their family, or their particular friends. Usually they performing activity like watching television, about to beach, or picnic inside park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your personal free time/ holiday? Can be reading a book can be option to fill your no cost time/ holiday. The first thing that you'll ask may be what kinds of publication that you should read. If you want to consider look for book, may be the guide untitled Accounting Information Systems can be very good book to read. May be it can be best activity to you.

Juan Turgeon:

This Accounting Information Systems is great reserve for you because the content which is full of information for you who have always deal with world and possess to make decision every minute. That book reveal it details accurately using great organize word or we can point out no rambling sentences included. So if you are read that hurriedly you can have whole details in it. Doesn't mean it only will give you straight forward sentences but tricky core information with beautiful delivering sentences. Having Accounting Information Systems in your hand like getting the world in your arm, details in it is not ridiculous 1. We can say that no reserve that offer you world with ten or fifteen moment right but this guide already do that. So , it is good reading book. Hey Mr. and Mrs. occupied do you still doubt which?

Catherine Gober:

You can find this Accounting Information Systems by visit the bookstore or Mall. Just simply viewing or reviewing it could possibly to be your solve difficulty if you get difficulties for your knowledge. Kinds of this reserve are various. Not only through written or printed but also can you enjoy this book by simply e-book. In the modern era including now, you just looking by your local mobile phone and searching what their problem. Right now, choose your own personal ways to get more information about your publication. It is most important to arrange yourself to make your knowledge are still upgrade. Let's try to choose suitable ways for you.
