

Practical Transfusion Medicine

From Wiley-Blackwell

Practical Transfusion Medicine From Wiley-Blackwell

Practical Transfusion Medicine, Fourth Edition

Edited by

Michael F. Murphy, Professor of Blood Transfusion Medicine, University of Oxford; Consultant Haematologist, NHS Blood and Transplant and Oxford University Hospitals, Oxford, UK

Derwood H. Pamphilon, formerly Consultant Haematologist, NHS Blood and Transplant; Honorary Clinical Reader, Department of Cellular and Molecular Medicine, University of Bristol, Bristol, UK

Nancy M. Heddle, Director, MTRP, Professor, Department of Medicine, McMaster University, Hamilton, Ontario, Canada

The pace of change in transfusion medicine is relentless, with new scientific and technological developments. In addition, efforts are continuing to improve clinical transfusion practice and avoid the use of blood wherever possible.

This fourth edition continues to be a concise and comprehensive guide to transfusion medicine. It has been thoroughly revised and updated throughout. The scope of the book has been broadened by including more international authors and a new co-editor, Professor Nancy Heddle, an expert in evidence-based transfusion medicine.

Practical Transfusion Medicine is divided into seven main parts, each of which guide the reader systematically through the key areas of the speciality:

- Principles of transfusion medicine
- Complications of transfusion
- Practice in blood centres and hospitals
- Clinical transfusion practice

- Alternatives to transfusion
- Cellular and tissue therapy and organ transplantation
- Development of the evidence base for transfusion

This book is ideal for trainee/resident haematologists revising for examinations and as a reference source for clinical and scientific staff working in the field of transfusion medicine.

Users Review

From reader reviews:

Floyd Wyatt:

What do you with regards to book? It is not important together with you? Or just adding material when you need something to explain what yours problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to complete others business, it is make one feel bored faster. And you have extra time? What did you do? Every person has many questions above. They must answer that question since just their can do which. It said that about publication. Book is familiar on every person. Yes, it is suitable. Because start from on guardería until university need this particular Practical Transfusion Medicine to read.

Bridgett Killion:

It is possible to spend your free time to see this book this guide. This Practical Transfusion Medicine is simple to bring you can read it in the park your car, in the beach, train in addition to soon. If you did not have got much space to bring the actual printed book, you can buy the actual e-book. It is make you much easier to read it. You can save often the book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

Steven Burley:

That book can make you to feel relax. This kind of book Practical Transfusion Medicine was vibrant and of course has pictures on there. As we know that book Practical Transfusion Medicine has many kinds or style. Start from kids until teenagers. For example Naruto or Investigation company Conan you can read and believe that you are the character on there. So , not at all of book are usually make you bored, any it makes you feel happy, fun and rest. Try to choose the best book for you personally and try to like reading which.

Charles Rowe:

What is your hobby? Have you heard that question when you got college students? We believe that that question was given by teacher on their students. Many kinds of hobby, Everyone has different hobby. So you know that little person such as reading or as examining become their hobby. You need to understand that reading is very important in addition to book as to be the point. Book is important thing to include you knowledge, except your personal teacher or lecturer. You get good news or update in relation to something by book. A substantial number of sorts of books that can you choose to adopt be your object. One of them is Practical Transfusion Medicine.
