Nowadays, you see so many advertisements for forex and equity trading platforms as never before. A new global multi-billion dollar market is rising up. And it is aimed at you. It looks easy to invest and make a profit. Likewise, living the life of freelancer who does not need to work, because your money works instead of you. You just sit in front of a notebook, a tablet or even a mobile device, then click and earn. Never was it so easy to buy and sell different currencies, stocks or commodities. You do not even need a lot of money or money at all. Leverage is king these days. And leverage is also the start of your fall. But do not fool yourself. I have encountered a lot of young people who believe they can earn just by investing or trading. They do not see forex markets or stock exchanges as places where only hard work is rewarded. That is not surprising. You watch the movie “The Wolf of Wall Street” and see how fantastic, funny and easy that life is. Before that movie, there was the TV series “Capital City”, full of smart guys and women with now obsolete computers and phones, who were able to fend off stress and earn a lot of money. My dream was to be like them. And that is the dream for many others. Once you become a trader in a bank, you easily move to another dream. Not to be an employee, but to be an employer. To have your own trading outlet. To earn for yourself and not for a bank. And that is the crossroads that everyone has to encounter in order to choose which way to go. One is more exciting, one is safer. But that is not so important. All stories here are based on hard facts, on things I have seen with my own eyes.

## **Editorial Review**

### About the Author

My name is Simon Kostrava and I have spent almost all my professional life at a dealing desk watching four screens with two eyes. As my professional life represents almost half of my entire life, I am not as young as it seems. I have spoken to a lot of investors, speculators and hedgers. Sometimes, I just listened; other times, I tried my best to help them or advise them. But there is never a better experience than when you invest and lose your own money.

With four screens on your desk, you sometimes need to a break from currency graphs and decide to switch to sport. Football, hockey, tennis, golf, horse racing or whatever sport you want to watch to get away from the financial markets. And when you get really into it, you always try to guess the winner of every match you see. One small step beyond and you're betting on outcomes. Financial trading is the same; you just speculate and try to be profitable. Well, that's not so easy these days.

Markets and sports. That is my life.
