Queen of Spies: Daphne Park, Britain's Cold War Spy Master By Paddy Hayes

The true story of Daphne Park, the female British secret intelligence officer who rose through the male-dominated ranks to become the Queen of Spies

From living in a tin-roofed shack north of Dar-es-Salaam to becoming Baroness Park of Monmouth, Daphne Park led a most unusual life—one that consisted of a lifelong love affair with the world of Britain's secret services. In the 1970s, she was appointed to Secret Intelligence Service's most senior operational rank as one of its seven Area Controllers—an extraordinary achievement for a woman working within this most male-dominated and secretive of organizations.

In *Queen of Spies*, Paddy Hayes recounts the fascinating story of the evolution of the British Secret Intelligence Service (SIS) from World War II to the Cold War through the eyes of Daphne Park, one of its outstanding and most unusual operatives. He provides the reader with one of the most intimate narratives yet of how the modern SIS actually went about its business whether in Moscow, Hanoi, or the Congo, and shows how Park was able to rise through the ranks of a field that had been comprised almost entirely of men.

Queen of Spies captures all the paranoia, isolation, deception of Cold War intelligence work, and combines it with the personal story of one extraordinary woman trying to navigate this secretive world. Hayes unveils all that it may be possible to know about the life of one of Britain's most celebrated spies.

Editorial Review

Review

“Fascinating and long-overdue” (The Washington Post)

“[A]n excellent biography of a remarkable woman...As exciting as any good spy thriller?but it's all true.” (Kirkus (starred review))

“Hayes is open about his own speculations, given the still-classified nature of much of this material, but he successfully conveys the inspiring nature of Park's personal story and achievements, offering an informative account of the Cold War and the workings of the supersecret SIS.” (Publishers Weekly)

“In a series of vignettes, the author tells a dramatic story that he gathered over five decades of researching the shadowy world of intelligence and those who survived it as an occupation. Miss Park's achievements were remarkable.” (The Washington Times)

“In his richly entertaining biography, Hayes describes how she once smuggled a man whose life was in danger out of the Congo in the boot of her car. She spent part of the second world war training Special Operations Executive agents before they were dropped by parachute into occupied France.” (The Guardian)
