Day Trade the S&P 500 Index for Fun and Profit: A Unique Method for Using Heikin Ashi Charts to Day Trade S&P500 Futures and ETFs By Patrick Maher

How To Day Trade the S and P 500 Index

Come learn how to successfully use Heikin Ashi charts to day trade the S&P500 emini futures contract, also known as the /ES.

This system has a 65% win rate with relatively small losses and an average profit of 2:1 based on historical backtesting using the NinjaTrader platform. . I describe in great detail exactly how to use this proven pattern and give you all the parameters you need to enter, exit, and manage the trade. Gone are the days of having a trading screen cluttered with dozens of useless indicators that do nothing but confuse and confound you as a futures trader. With this very simple to recognize chart pattern you will just need a bit of practice and then be on your way to trading like a pro! This pattern described within also applies to the S&P500 ETFs as well, so if emini future trading is not your style then go ahead and use the ETF.

Within this inexpensive ebook you will find these with each one explained in great detail.

- Time to Trade
- Chart Type
- Max Loss per Trade
- Max Daily Loss
- Entry Candle
- Initial Stop
- Target

- After the set up is explained I take you through three weeks of actual trades

explaining how to apply this system. The three weeks cover a good week, a bad week, and a break even week. This way you will be exposed to what they system looks like in a myriad of conditions, not just the cherry picked examples of good trades that you will find in other trading volumes.

I also go over the tools you need to be successful when trading this system. These include things like money management and trading psychology.

If you follow this simple trading plan you too will break free from the indicator chokehold and be on your way to becoming a profitable trader!

If you have trouble viewing the charts within the book, some ereaders may have trouble, please email me and I will send you the full size charts

Editorial Review

Users Review

From reader reviews:

Sheila Cyr:

Book is usually written, printed, or illustrated for everything. You can understand everything you want by a reserve. Book has a different type. As you may know that book is important factor to bring us around the world. Close to that you can your reading talent was fluently. A guide Day Trade the S&P 500 Index for Fun and Profit: A Unique Method for Using Heikin Ashi Charts to Day Trade S&P500 Futures and ETFs will make you to possibly be smarter. You can feel a lot more confidence if you can know about every thing. But some of you think which open or reading some sort of book make you bored. It is far from make you fun. Why they can be thought like that? Have you looking for best book or appropriate book with you?

Michelle Wilson:

Spent a free a chance to be fun activity to perform! A lot of people spent their spare time with their family, or their particular friends. Usually they carrying out activity like watching television, planning to beach, or picnic in the park. They actually doing same thing every week. Do you feel it? Will you something different to fill your free time/ holiday? Could be reading a book might be option to fill your free of charge time/ holiday. The first thing you will ask may be what kinds of reserve that you should read. If you want to test look for book, may be the publication untitled Day Trade the S&P 500 Index for Fun and Profit: A Unique Method for Using Heikin Ashi Charts to Day Trade S&P500 Futures and ETFs can be fine book to read. May be it is usually best activity to you.

Tammara Dejesus:

This Day Trade the S&P 500 Index for Fun and Profit: A Unique Method for Using Heikin Ashi Charts to Day Trade S&P500 Futures and ETFs is great guide for you because the content which is full of information for you who also always deal with world and get to make decision every minute. This kind of book reveal it info accurately using great coordinate word or we can point out no rambling sentences inside it. So if you are read the item hurriedly you can have whole details in it. Doesn't mean it only provides you with straight forward sentences but tough core information with beautiful delivering sentences. Having Day Trade the S&P 500 Index for Fun and Profit: A Unique Method for Using Heikin Ashi Charts to Day Trade S&P500 Futures and ETFs in your hand like keeping the world in your arm, information in it is not ridiculous one. We can say that no reserve that offer you world in ten or fifteen small right but this guide already do that. So , this really is good reading book. Hey Mr. and Mrs. occupied do you still doubt that?

Robert Berman:

As a pupil exactly feel bored to help reading. If their teacher expected them to go to the library as well as to make summary for some book, they are complained. Just very little students that has reading's heart and soul or real their hobby. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading really. Any students feel that reading is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Day Trade the S&P 500 Index for Fun and Profit: A Unique Method for Using Heikin Ashi Charts to Day Trade S&P500 Futures and ETFs can make you sense more interested to read.
