Editorial Review

Review

Praise for the first edition:

"At last students and teachers of early modern England have a sourcebook of their own that is everything they could have asked for. The sources, both old favorites and some refreshing surprises, are enhanced by thought-provoking introductions and reference to the latest scholarship. Most happily, they are printed in substantially long excerpts rather than the unsatisfying snippets available elsewhere." *Michael B. Young, Illinois Wesleyan University*

"The sources give insight into the lives of individuals as well as politics, religion, and culture. They are also thoughtfully selected and open to a multiplicity of interpretations. Well-chosen illustrations add significantly to the value of the book." *Carole Levin, University of Nebraska-Lincoln*

Review

"The best textbooks I have used for any class—ever"—**Katherine Clark, University of Kansas**

From the Back Cover

Designed to accompany the survey text *Early Modern England, 1485-1714: a Narrative History*, this updated and substantially revised sourcebook guides students through an impressive array of documents from the Tudor-Stuart period.

The new edition is enhanced with 50 new documents, and new explanatory headnotes, biographical background, and study questions. Each chapter includes a *Historians' Debates* bibliography with the latest articles and essays as well as a section listing additional source collections, both of which help students engage in further reading and directed research. The sources selected illuminate important topics of the era, including political and religious revolutions, social and economic transformations, and intellectual ferment. New documents include foreign visitors' impressions of England, documents from Elizabethan London, confessions of a murderess and of a witch, an attack on and a defence of sectarian society from the 1640s, and an early feminist discussion of marriage, as well as new sources on Ireland and Scotland before the Civil Wars and after the Glorious Revolution. There is also an expanded and revised bibliography of online document archives, and plates with explanatory captions with study questions for each chapter.
